

Name:

Scoring Rubric for
Final Project.
ICT Class with Ms. Kristen Palana

<u>Element</u>	<u>Worth (in points)</u>	<u>Points Earned</u>
1. The final project is presented in a DRAFT blog post by the due date with all appropriate images, videos, and/or links as dictated by the type of project completed. (Example: An animated project has a Youtube video embedded or link, a series of digital images has images, etc.)	10	
2. The presenter explains clearly their concept and reasons for their aesthetic and creative choices.	10	
3. Student participates in critique.	10	
4. The student explained their project in the blog post and there is 1-3 paragraphs of text commentary and at least one image. The student added tags and categories for their blog post.	10	
5. Project uses color, lines, words, texture, sound etc. to create mood, communicate visually, and bring across the concept.	10	
6. Project has good/interesting composition and appropriate placement of elements, if applicable.	15	
7. The image/video, or sound quality is professional.	15	
8. The student experimented, took risks, worked well independently and/or with their group and grew their knowledge in ICT as a result of this final project	20	
	<u>TOTAL POINTS EARNED:</u>
