

Pisces: Depths of Harmony

Original “slow art” by Kristen Palana

This artwork is designed to invite **flow, balance, and emotional depth** into your life.

This image is part of a zodiac series, where each piece was hand-drawn during its sun sign's season. Every image in the series blends symbols and patterns from each inhabited continent, offering a visual meditation on the universal traits we share across cultures.

At the center, two koi fish form a yin-yang pattern, reflecting Pisces' fluid dual nature. Maori wave patterns from Oceania evoke the deep emotional currents that Pisces navigates so naturally. South American water lilies connect the piece to the dream world and the subconscious. Celtic knots speak to the European tradition of interconnectedness. African daisies and North American maple leaves frame the composition in growth, resilience, and the beauty of the natural world.

Suggested Placement: This piece belongs in a bedroom, meditation space, or any room where you go to rest, dream, or reconnect with yourself. It is also a natural fit for a therapy room, healing space, or yoga studio.

✨ May this piece bring you the gift of **deep peace, the wisdom to trust your own flow, and the joy of moving through life with grace.**
