

Peace Dove

Original “slow art” by Kristen Palana

This artwork is designed to bring you **peace, hope, and a sense of calm renewal** in a world that often feels loud and unsettled. It is a reminder that the impulse toward peace is universal, timeless, and always available to you.

Peace Dove was created by the shores of Lake Malawi. Drawn in the mosaic style, a form found across time, location, and culture, this piece honors the white dove as one of humanity's oldest and most cross-cultural symbols: a messenger of new beginnings, love, fidelity, and the possibility of something better.

The mosaic structure mirrors the idea that peace itself is built piece by piece, tile by tile, one small act of intention at a time.

Suggested Placement: Hang this piece in your home, meditation space, or any room where you want to invite a sense of calm and renewal. It works beautifully in living rooms, creative studios, therapy offices, healing rooms, and sacred spaces where a reminder of hope feels necessary.

This piece is a tool for daily anchoring and can be a visual meditation on what is still possible. It encourages **stillness, hope, and the power of choosing peace**.

✨ May this artwork be a small sanctuary in your space, a reminder that peace is not something you wait for. It is something you carry.

A handwritten signature in black ink that reads "K Palana".
